**Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)**

NGN supports this modification as it will ensure that FGO arrangements introduced under modification 565A remain effective following the implementation of Project Nexus. The change will merge the services set out in the major Project Nexus modifications (432, 434, and 440) with the new service structure created by modification 565A, but will not amend the services themselves.
