Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

NGN supports all three modifications as they will ensure the effective and efficient implementation of Project Nexus on 1 June by introducing transitional arrangements and miscellaneous required changes to the UNC.

Self-Governance Statement: Please provide your views on the self-governance statement.

NGN agrees that modifications 608 and 610 should be subject to self-governance as neither would have a material impact on parties or the UNC.

NGN also agrees that modification 609 should proceed for authority decision as it could have a material impact on commercial activities of the UNC such as settlement and reconciliation.

Implementation: What lead-time do you wish to see prior to implementation and why?

NGN agrees with the suggested implementation timescales for all three modifications.

Impacts and Costs: What analysis, development and ongoing costs would you face?

NGN does not foresee any additional impacts or costs.

Legal Text: *Are you satisfied that the legal will deliver the intent of the Solution?*

NGN agrees that the legal texts provided support the solutions specified in the modifications.

Are there any errors or omissions in this Modification Report that you think should be taken into account? *Include details of any impacts/costs to your organisation that are directly related to this.*

None.

Please provide below any additional analysis or information to support your representation

None.
