Support or oppose implementation?	Support
Relevant Objective:	f) Positive

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

Npower thinks that this Modification Proposal provides a solution that would provide members and alternates of the Performance Assurance Committee with additional protection from potential liability claims that will enable them to make appropriate decisions in good faith. We also believe that replicating the assurance afforded to the Energy Balancing Credit Committee as suggested in the proposal offers a straightforward and effective means of providing that protection.

Self-Governance Statement: *Please provide your views on the self-governance statement.*

We agree with the view that the Modification Proposal is suitable to be progressed via self-governance.

Implementation: *What lead-time do you wish to see prior to implementation and why?*

If possible, implementation should be as soon as possible, so the additional protection can come into force prior to the earliest possible subsequent meeting of the Performance Assurance Committee.

Impacts and Costs: *What analysis, development and ongoing costs would you face?*

None.

Legal Text: *Are you satisfied that the legal text will deliver the intent of the Solution?*

Yes

Are there any errors or omissions in this Modification Report that you think should be taken into account? *Include details of any impacts/costs to your organisation that are directly related to this.*

No
