Final Modification Report

0418 and 0418A - Review of LDZ Customer Charges

Consultation close out date: 10 December 2013
Respond to: enquiries@gasgovernance.co.uk
Organisation: RWE npower
Representative: Dimuthu Wijetunga
Date of Representation: 09 December 2013

This consultation is being undertaken because additional information regarding DN costs has been published following the initial consultation, and is now contained in the Final Modification Report. Representations submitted for the previous consultation do not need to be resubmitted. However, Modification Panel Members have indicated that it would be particularly helpful if the following questions could be addressed in any further responses. You may wish to address this by using this template, but are also free to withdraw your previous response and submit an entirely new one if you wish to do so.

Q1: Has the provision of additional information changed your previous views made in representations? If so, please explain why.

The views of RWE npower are unchanged from our previous response. We continue to support the implementation of Modification 0418A and we remain opposed to Mod418 due to the reasons pointed out in our original response.

Q2: Are there any new or additional issues that you believe should be recorded in the Modification Report due to the provision of additional information?

None
