Do you support or oppose implementation?

Support

Please summarise (in one paragraph) the key reason(s) for your support/opposition.

This modification will increase the overall accuracy of the Mod 81 Reports as at present they include all amendments made by shippers and not just the effects of the final amendments. Furthermore, as the current figures include all amendments they can include a number of erroneous amendments which are subsequently corrected, but as some of these can be extremely large this has led to the final reports being skewed and inaccurate in the past.

Are there any new or additional issues that you believe should be recorded in the Modification Report?

No.
