Final Modification Report

0418 and 0418A - Review of LDZ Customer Charges

Consultation close out date: 10 December 2013
Respond to: enquiries@gasgovernance.co.uk
Organisation: Scotia Gas Networks
Representative: Joel Martin
Date of Representation: 10 December 2013

This consultation is being undertaken because additional information regarding DN costs has been published following the initial consultation, and is now contained in the Final Modification Report. Representations submitted for the previous consultation do not need to be resubmitted. However, Modification Panel Members have indicated that it would be particularly helpful if the following questions could be addressed in any further responses. You may wish to address this by using this template, but are also free to withdraw your previous response and submit an entirely new one if you wish to do so.

Q1: Has the provision of additional information changed your previous views made in representations? If so, please explain why.

SGN provided an initial representation on the 2 August 2013 relating to modification proposals 418 and 418A. The provision of additional information relating to the costs associated with the cost categories has not changed our view in relation to either proposal.

Q2: Are there any new or additional issues that you believe should be recorded in the Modification Report due to the provision of additional information?

No new issues have been identified.
