#### Do you support or oppose implementation?

Support

#### Please summarise (in one paragraph) the key reason(s) for your support/opposition.

SGN are fully in support of the implementation of Project Nexus and acknowledge the development timescales which have been followed. However, considering the previously unforeseen European legislative change in regards to the Gas Day which also requires implementation at the same time we do support UNC Modification 491. This is on the basis that the Gas Day change must be implemented to facilitate legislative compliance and to ensure that this is completed on schedule the two changes must be decoupled, which Modification 0491 achieves.
