Draft Modification Report

0470 - Notification of Minimal Safety operating gas needs of large customers

Consultation close out date: 04 April 2014

Respond to: enquiries@gasgovernance.co.uk

Organisation: Total Gas & Power Ltd

Representative: Andrew Green

Date of Representation: 04th April 2014

Do you support or oppose implementation?

Support

Please summarise (in one paragraph) the key reason(s) for your support/opposition.

TGP believes that it would be beneficial to large qualifying customers and transporters if there was a mechanism to inform transporters of site requirements in advance of an emergency situation. This could lead to a more efficient management of a constraint and may minimise the commercial impact on certain customers.

Modification Panel Members have indicated that it would be particularly helpful if the following questions could be addressed in responses:

Q1: Do you consider that this change will have a material impact on either your business or competition in shipping, transportation or supply of gas, and if so, what?

No

Are there any new or additional issues that you believe should be recorded in the Modification Report?

No

Relevant Objectives:
How would implementation of this modification impact the relevant objectives?

Relevant objective A as it would help Transporters planning and operation during an emergency

Impacts and Costs:
What analysis, development and ongoing costs would you face if this modification were implemented?

None

Implementation:

0470
Representation

20 March 2014
