UNC Modification Proposal 0604S - Central Data Services Provider – Arrangements following implementation of Project Nexus

Dear Bob,

Thank you for your invitation seeking representations with respect to the above Modification Proposal which, as proposer, National Grid Gas Distribution Limited (NGGD) would like to support.

Do you support or oppose implementation?

Support

Relevant Objective: f) Positive.

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)?

We believe that the measures identified within the Modification Proposal facilitate GT Licence 'relevant objective' f) 'Promotion of efficiency in the implementation and administration of the Code'. In particular they identify that the arrangements implemented under UNC Modification 0565A 'Central Data Service Provider: General framework and obligations' are amended accordingly to ensure suitability once Project Nexus is implemented on 1st June 2017.

Self-Governance Statement:

NGGD concurs with the justification statement within the Draft Modification Report, that the Modification "would have no material impact on UNC parties, Independent Gas Transporters (iGTs) or the CDSP".

Implementation

This Modification Proposal can be implemented with effect from Project Nexus Implementation Date (PNID), presently identified within the UNC as being 1st June 2017.

Impacts and Costs

The costs associated with developing and implementing this Modification will be borne as part of the overall Xoserve Funding, Governance and Ownership (FGO) programme.

Legal Text

NGGD is satisfied that the legal drafting contained within the Modification Proposal meets the requirements of the Modification.

Are there any errors or omissions in this Modification Report that you think should be taken into account?

We have not identified any errors or omissions within this Modification Proposal.

Please provide below any additional analysis or information to support your representation

The solution identified in this Modification Proposal is essential to ensure that the UNC regime to be implemented on the PNID is properly reflective of the FGO arrangements implemented by UNC Modification 0565A.

We trust that this information will assist in the compilation of the Final Modification Report. Please contact me on 01926 653541 (chris.warner@nationalgrid.com) should you require any further information.

Yours sincerely,

Chris Warner
