**Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)**

SGN supports Modification 0620S as it extends the deadline for delivery of the revised UK Link Manual and provides more time for industry parties to comprehensively review the significant volume of changes.

**Self-Governance Statement: Please provide your views on the self-governance statement.**

We agree with self-governance status as this modification is unlikely to materially impact the self-governance criteria.

**Implementation: What lead-time do you wish to see prior to implementation and why?**

Under self-governance procedures, this modification could be implemented sixteen business days following Panel decision, subject to no appeals being raised.

**Impacts and Costs: What analysis, development and ongoing costs would you face?**

We do not believe there are any material impacts in extending the deadline for delivery of the revised manual and are keen to ensure the document is comprehensively reviewed and agreed by industry parties and is of adequate quality.

**Legal Text: Are you satisfied that the legal text will deliver the intent of the Solution?**

Yes.

**Are there any errors or omissions in this Modification Report that you think should be taken into account?** *Include details of any impacts/costs to your organisation that are directly related to this.*

No.

**Please provide below any additional analysis or information to support your representation**

N/A.
