

## Self-Governance Statement

### **Modification 0370 – Continuation of CV determination by National Grid Transmission on behalf of DNOs**

The Transporters are submitting this Self-Governance Statement to the Authority in accordance with the UNC Modification Rules.

On 17 March 2011, the Modification Panel considered Modification 0370 and determined that the modification should be treated as a Self-Governance Modification Proposal.

The existing service will be maintained such that there will be no material impact, although the service will be properly reflected in the UNC with the existing (2007) deadline removed. As such, the modification:

- (i) is unlikely to have a material effect on:
  - (aa) existing or future gas consumers; and
  - (bb) competition in the shipping, transportation or supply of gas conveyed through pipes or any commercial activities connected with the shipping, transportation or supply of gas conveyed through pipes; and
  - (cc) the operation of one or more pipe-line system(s); and
  - (dd) matters relating to sustainable development, safety or security of supply, or the management of market or network emergencies; and
  - (ee) the uniform network code governance procedures or the network code modification procedures; and
- (ii) is unlikely to discriminate between different classes of parties to the uniform network code/relevant gas transporters, gas shippers or DN operators.

The Proposed Self-Governance Modification Proposal Determination Date is 21 April 2011.
