

Workgroup Terms of Reference

0390 - Introduction of a Supply Point Offtake Rate Review and Monitoring Process

Date referred from Panel: 21 July 2011

Background – Why Change?

Please refer to Modification 0390 at www.gasgovernance.co.uk/0390

Solution

It is proposed to introduce new obligations on both Transporters and Shippers to review Supply Point Offtake Rates for Daily Metered Supply Points on an annual basis to ensure they accurately reflect end consumer capacity requirements.

It is also proposed to introduce obligations on Shippers to apply for a revised SPOR where they became aware that the maximum offtake rate at a Registered DM Supply Point Component may be or has been subject to any reduction and also to take all reasonable steps to ensure they become aware of any such reduction in the SPOR.

Topics for Discussion

- Understanding the objective
- Assessment of alternative means to achieve objective
- Development of Solution (including business rules if appropriate)
- Assessment of potential impacts of the modification
- Assessment of implementation costs
- Assessment of legal text
- Consider the implementation timetable to ensure it complies with the modification rules.

Outputs

Produce a Workgroup Report for submission to the Modification Panel, containing the assessment and recommendations of the Workgroup.

Composition of Workgroup

The Workgroup is open to any party that wishes to attend or participate.

A Workgroup meeting will be quorate provided at least two Transporter and two User representatives are present.

Meeting Arrangements

Meetings will be administered by the Joint Office and conducted in accordance with the Code Administration Code of Practice.
