

## UNC Workgroup Terms of Reference

### 0602 - Implementation of Non Effective Days and Variant Non-Business Days for Project Nexus Implementation (Project Nexus transitional modification)

**Date referred from Panel:** 17 November 2016

#### Background – Why Change?

Please refer to: <http://www.gasgovernance.co.uk/0602>

#### Solution

It is proposed that in order to enable a smooth and efficient transition to the new supporting systems it is necessary to set out terms within the Uniform Network Code (UNC) Transition Document (TD) which identify the dates when the UK-Link System will not be available for transactions and processes as identified within the UNC. This modification identifies when the relevant systems would be taken off-line or subject to additional support measures impacting transaction processing.

#### Topics for Discussion

- Understanding the objective
- Assessment of proposed governance arrangements
- Validate the Solution in terms of how many days are required to accommodate objections, and how this would be achieved
- Assessment of alternative means to achieve objective
- Development of Solution (including business rules if appropriate)
- Assessment of potential impacts of the modification
- Assessment of implementation costs
- Assessment of legal text

#### Outputs

Produce a Workgroup Report for submission to the Modification Panel, containing the assessment and recommendations of the Workgroup.

#### Composition of Workgroup

The Workgroup is open to any party that wishes to attend or participate.

A Workgroup meeting will be quorate provided at least two Transporter and two User representatives are present.

#### Meeting Arrangements

Meetings will be administered by the Joint Office and conducted in accordance with the Code Administration Code of Practice
