#### Ofgem's review of Xoserve's Funding, Governance and Ownership (FGO)

Update for Transmission Workgroup January 2016

#### **Programme Status**

- Implementation approach
- GT Licence Consultation
- Modification Proposal 0565 raised by National Grid Distribution

#### **Implementation Approach**

- Two phased approach has been agreed with Ofgem
- Interim implementation in April 2016
  - Addition of 4 Shipper Nominated Board members
  - Soft landing of new Change and Contract Management processes
- Full implementation in April 2017
  - Board membership parity
  - UNC modification implemented
  - New contract(s) signed and in place
  - Revised Funding arrangements implemented

### **GT Licence Consultation**

- Ofgem decision to place obligation on GTs to implement Central Data Services Provider (CDSP)
- GTs have responded to informal licence consultation in Dec
- Licence consultation expected imminently
  - Shipper input needed
  - Outputs will impact on Shipper interactions with Xoserve
- Licence condition to begin to come into effect from April 2016.

### **FGO Modification**

- Modification Proposal 0565 raised by National Grid Distribution
  - Target date for Modification Report October 2016
  - Timed to follow planned Funding consultation decision in September 2016
- Initial workgroup held. Next Workgroup January 6<sup>th</sup>
- Need for Transmission Shipper attendance at future workgroups
- Being run in parallel with CDSP contract development

### High level milestone plan
