

Variation Request

Modification 0319 “Code Governance Review: Role of Code Administrators and Code Administration Code of Practice”

Date: 08/10/2010

The Proposer, National Grid NTS, requests a variation to this Proposal, pursuant to UNC Modification Rules Section 6.5.1(c) of the UNC.

Reason for Variation

Following discussion at the September UNC Panel meeting, National Grid NTS feel that 0319 would benefit from some additional non-material changes to aid clarification.

Nature of Variation

Amend section 12.9.2 to clarify that the Panel shall set an initial timetable of up to six months and where the Panel determines that an extension to the workgroup timetable is required and the timetable exceeds 6 months in total, the Panel shall notify the Authority. If the Authority object to the extension then the Panel shall, at the next Panel meeting, in accordance with 7.2 decide the next course of action.

Amend nature of the proposal, page 7, section “Implement SSC A11 paragraph 15 (b) (ii) – Send Back Powers” to include additional clarification that the Authority can direct the Panel to revise and resubmit a Final Modification Report to reflect additional steps including drafting, re-drafting, revisions (including timetable), analysis or additional information as specified in the direction to enable the Authority to form an opinion.

A change marked version of the proposal is available at: www.gasgovernance.co.uk/0319
