

## Variation Request

### Modification 0323 “Code Governance Review: Self Governance”

Date: 11/10/2010

The Proposer, National Grid Transmission, requests a variation to this Proposal, pursuant to UNC Modification Rules Section 6.5.1(c) of the UNC.

#### Reason for Variation

Following discussion at the Governance Workstream meeting on 4<sup>th</sup> October 2010, National Grid Transmission feels that 0323 would benefit from some additional non-material changes to aid clarification.

#### Nature of Variation

Updates to the Proposal to cover the following aspects

- Replacement of specific references to sections of the UNC Modification Rules with “UNC Modification Rules” to allow flexibility on how the legal text can be developed.
- Specify that the Final Modification Report (FMR) will record how the proposal has been determined as Self Governance.
- Reflect that representations shall be submitted unless the authority directs otherwise. This is consistent with SSC A11 15D b.
- Reflect that the transporters will not seek a view from the Authority when it is related to a Self Governance proposal, consistent with SSC A11 9e.
- Clarification that the Panel Determination on whether to implement a Self Governance Modification Proposal will be included in the FMR
- Reflect that the Panel will reconsider their determination if the appeal is received within 15 (fifteen) Business Days of the determination of the Modification Panel and the Authority will assess any appeal referred to them against the Self Governance Appeals Criteria.

A change marked version of the proposal is available at: [www.gasgovernance.co.uk/0323](http://www.gasgovernance.co.uk/0323)
