19th December 2014

Briefing Note

UK Link Programme delivery and the Uniform Network Code Committee meeting of 18th December 2014

At the Uniform Network Code Committee meeting held on 17th December 2014, four file format products that had been referred from the UK Link Committee were submitted for consideration. A formal vote on these products was deferred to the January 2015 meeting.

Xoserve has subsequently been asked what this deferred vote means for its ongoing delivery of the UK Link Programme, through which the Project Nexus UNC Modifications will be enabled.

I can confirm that Xoserve is continuing delivery of the UK Link Programme with the October 2015 target delivery on the basis of the file formats that were submitted for approval.

Should this briefing note raise any questions, please contact Xoserve's Stakeholder Engagement Manager, Sandra Simpson, sandra.i.simpson@xserve.com.
