1 Summary

What

Pre Project Nexus Implementation, the MAM Id data item was visible to Shippers and Suppliers within community view in Data Enquiry Service (DES).

Following an internal review of data permissions, it was confirmed that the explicit permissions to provide this data item did not currently exist and the MAM Id was deemed to be commercially sensitive. This resulted in the Post Project Nexus Implementation solution removing the MAM Id data item from the community view.

This Modification seeks to amend Section V of the UNC to create the permission for the MAM Id data item to be included within community view of DES for Shippers and Suppliers.

Why

Suppliers have advised that pre-Nexus this data item was used in relation to customer pricing and resolving meter point queries. Suppliers have suggested there is added value to be gained through having this data item restored, specifically in relation to:

1. Pricing the meter asset cost competitively - in the absence of a Nomination Offer and the K12 record through an enquiry response.
2. Allowing the relevant Supplier/Shipper to apply the appropriate price list for that specific MAM.
3. Supporting Suppliers/Shippers in their ability to resolve cross meter queries.
4. Allowing site work teams to effectively establish the metering details held against Shipper-less Supply Points.

Restoring the MAM Id data item will assist Suppliers and Shippers in undertaking the above activities.

How

Amend TPD Section V of the UNC to permit the release of data in line with the Permissions Matrix to be held within the UK Link Manual.

2 Governance

Justification for Self-Governance

This Modification allows the reinstatement of the MAM Id data item for Shippers and Suppliers within community view in DES. It creates these permissions through amending Section V of the UNC by referencing the UK Link Manual which includes the Permissions matrix. As such, this is a non-material change to the UNC to align the release of data to the Permissions matrix.

Requested Next Steps

This modification should:

- be considered a non-material change and subject to self-governance

- be assessed by a Workgroup

3 Why Change?

This Modification seeks to amend Section V of the UNC to create the permission for the MAM Id data item to be included within community view of DES for Shippers and Suppliers.

Pre Project Nexus Implementation, the MAM Id data item was visible to Shippers and Suppliers within community view in DES.

Following an internal review of the data permissions, the Post Project Nexus Implementation solution resulted in the removal of the MAM Id data item from community view DES for Shippers and Suppliers.

Suppliers have advised that pre-Nexus this data item was used in relation to customer pricing and resolving meter point queries. Suppliers have suggested there is added value to be gained through having this data item restored, specifically in relation to:

1. Pricing the meter asset cost competitively - in the absence of a Nomination Offer and the K12 record through an enquiry response.
2. Allowing the relevant Supplier/Shipper to apply the appropriate price list for that specific MAM.
3. Supporting Suppliers/Shippers in their ability to resolve cross meter queries.
4. Allowing site work teams to effectively establish the metering details held against Shipper-less Supply Points.

If the MAM Id data item is not restored, it will be challenging for Suppliers and Shippers to undertake the above activities.

4 Code Specific Matters

Reference Documents

CDSP UK Link Manual

Permissions Matrix

Knowledge/Skills

No specific knowledge or skills are necessary

5 Solution

TPD Section V of the UNC is amended to permit the release of data in line with the Permissions Matrix held within the UK Link Manual.

6 Impacts & Other Considerations

Does this modification impact a Significant Code Review (SCR) or other significant industry change projects, if so, how?

Neither the SCR nor any significant industry change project is impacted.

Consumer Impacts

No consumer impacts are identified.

Cross Code Impacts

No cross code impacts have been identified

EU Code Impacts

No EU Code impacts identified

Central Systems Impacts

The Data Enquiry Service will need to be amended in order to display the MAM Id data item within the Shipper and Supplier community view.

7 Relevant Objectives

Impact of the modification on the Relevant Objectives:

Relevant Objective	Identified impact
a) Efficient and economic operation of the pipe-line system.	None
b) Coordinated, efficient and economic operation of (i) the combined pipe-line system, and/ or (ii) the pipe-line system of one or more other relevant gas transporters.	None
c) Efficient discharge of the licensee's obligations.	None
d) Securing of effective competition: (i) between relevant shippers; (ii) between relevant suppliers; and/or (iii) between DN operators (who have entered into transportation arrangements with other relevant gas transporters) and relevant shippers.	Positive
e) Provision of reasonable economic incentives for relevant suppliers to secure that the domestic customer supply security standards... are satisfied as respects the availability of gas to their domestic customers.	None

f) Promotion of efficiency in the implementation and administration of the Code.	None
g) Compliance with the Regulation and any relevant legally binding decisions of the European Commission and/or the Agency for the Co-operation of Energy Regulators.	None

This Modification seeks to amend Section V of the UNC to create the permission for the MAM Id data item to be included within community view of DES for Shippers and Suppliers.

This amendment facilitates objective d) ‘Securing effective competition: (ii) between relevant suppliers’ by allowing Suppliers to cost competitively in relation to customer pricing.

8 Implementation

As self-governance procedures are proposed, implementation could be sixteen business days after a Modification Panel decision to implement, subject to no Appeal being raised.

Analysis is being undertaken by Xoserve to provide details on costs and timescales.

10 Recommendations

Proposer’s Recommendation to Panel

Panel is asked to:

- Agree that self-governance procedures should apply
- Refer this proposal to a Workgroup for assessment.
