Phil Hobbins	(PH)	National Grid
Terry Burke*	(TB)	Statoil

Copies of all papers are available at: <https://www.gasgovernance.co.uk/0607/061017>.

## 1.0 Introduction and Status Review

RH welcomed all to the meeting, advising the Workgroup that the emphasis should be on finalising the draft Workgroup Report if at all possible and finalising Action updates.

### 1.1 Apologies

No apologies were received.

### 1.2 Approval of Minutes (27 September 2017)

A slight amendment was discussed and pending the amendment, the minutes of the previous meeting were approved.

## 2.0 Finalisation of the Workgroup Report

LM requested an explanation from National Grid NTS as to why Modification 0607S requires the time limiting flexibility.

PH explained that this particular Modification is requesting a higher level of CO<sub>2</sub> than the previously received requests. There is a potential that these types of request will increase in the future, therefore, National Grid, (to reduce competition risks) feels that additional safeguards are necessary.

The workgroup report was reviewed by the parties present and an onscreen amendment was completed.

This created a final version of the Workgroup Report that will be submitted to the October 2017 UNC Panel.

There then followed an on-screen review of the 'National Grid Gas Transmission (NGGT) Gas Quality Consultation Questions – Draft' provided by National Grid NTS for the meeting.

The Workgroup reviewed the questions and considered they are relevant in the wider context, but not for Modification 0607S.

Thank you to National Grid for sharing their intended consultation questions with the Workgroup. The Workgroup were pleased to have had the opportunity to have seen them.

### 3.0 Review of Outstanding Actions

None to review.

### 4.0 Next Steps

As the Workgroup Report is now finalised, this will now be submitted to the October 2017 UNC Panel.

#### Diary Planning

Further details of planned meetings are available at: <http://www.gasgovernance.co.uk/Diary>
