

MODIFICATION 0642 - SCHEDULE A

UNIFORM NETWORK CODE – TRANSPORTATION PRINCIPAL DOCUMENT

SECTION E – DAILY QUANTITIES, IMBALANCES AND RECONCILIATION

1.5.5 For the purposes of the Code, differences between the quantities of gas determined to have entered a LDZ (after adjustment for shrinkage and stock change) on a Day and the quantities which would be determined as offtaken by Users from the LDZ on the Day (on the basis of daily measurement and demand estimation under Section H disregarding the Scaling Factor SF_i) are treated as comprising:

- (a) unidentified gas, being gas which:
 - (i) is offtaken from the LDZ, but
 - (ii) is not measured (by metering in accordance with TPD Section M) as so offtaken and allocated to the Registered User of a Supply Meter Point (including a CSEP Supply Meter Point) or a CSEP User in respect of a Metered Connected System Exit Point pursuant to such measurement; and
- (b) settlement error being other such differences.
