

Modification 0652 – Winter consumption

Potential modification amendments

John Welch
20/06/2018

Potential updates

- Reads – leave current obligations as is – most sites should have AMR and submit reads monthly.
- Update process – create new obligation in section G.
- Reporting – Process to be supported by reporting, a combination of proactive and performance reporting throughout the gas year.
- Next page shows the interaction between process touchpoints and potential reporting.
