

UNC Workgroup Individual Terms of Reference

0662 - Revenue Recovery at Combined ASEPs

Introduction

This is an Individual Terms of Reference that includes matters referred from Panel or identified within any initial representations. It replaces the standard Terms of Reference.

Purpose of the Modification and its Solution

Please refer to <https://www.gasgovernance.co.uk/0662>

It is proposed to allow entry capacity booked for the entry of gas into the NTS from storage sites within combined Aggregated System Entry Points (ASEPs), to be treated the same as a “Storage Site” as designated in National Grid’s Licence with respect to the application of any revenue recovery charge based on capacity bookings.

Topics for Discussion

- Understanding the objective
- Consideration of whether Self-Governance could apply
- Consideration of the wider implications of ignoring the physical nature of the total system
- Assessment of the re-distribution of revenue recovery
- Assessment of alternative means to achieve objective
- Development of Solution (including business rules if appropriate)
- Assessment of potential impacts of the modification
- Assessment of implementation costs
- Assessment of legal text.

Output

To produce a Workgroup Report, for submission to the UNC Modification Panel, containing the assessment and recommendation(s) of the Workgroup.

Composition of Workgroup

The Workgroup is open to any party that wishes to attend or participate.

A Workgroup meeting will be quorate provided at least two Transporter and two Shipper User representatives are present.

Meeting Arrangements

Meetings will be administered by the Joint Office of Gas Transporters and conducted in accordance with the Code Administration Code of Practice (<https://www.gasgovernance.co.uk/cacop>)
