Support or oppose implementation?	Support
Relevant Objective:	d) Positive f) Positive

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

We support the obligation into the UNC for the regular provision of regular NDM sample data as believe it will improve NDM allocation profile and EUC development. This should have a beneficial effect of improving UIG issues across the Market.

Self-Governance Statement: *Please provide your views on the self-governance statement. In particular do you consider the Modification is suitable for Self-Governance?*

Agreed self-governance is appropriate

Implementation: *What lead-time do you wish to see prior to implementation and why?*

3 months lead time required, but as the data is already collected it has been relatively low cost (a few days of IT time) to extract the required data.

Impacts and Costs: *What analysis, development and ongoing costs would you face?*

We have not fully analysed the cost.

Legal Text: *Are you satisfied that the legal text will deliver the intent of the Solution?*

Yes

Are there any errors or omissions in this Modification Report that you think should be taken into account? *Include details of any impacts/costs to your organisation that are directly related to this.*

No Comment

Please provide below any additional analysis or information to support your representation
