Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

We believe that UNC 0969 will remove detrimental consumer impacts by removing the current contradiction under the UNC where a Consumer is charged for capacity under the UNC, but is prohibited from accessing this capacity under a NEXA agreement.

We would support an ASAP implementation.

We have not identified any costs.

We are satisfied with the legal text.

Are there any errors or omissions in this Modification Report that you think should be taken into account? *Include details of any impacts/costs to your organisation that are directly related to this.*

N/A

Please provide below any additional analysis or information to support your representation
