Monday 15th February 2021

Dear Colleague,

Annual Invitation to Participate in Auction of Quarterly System Entry Capacity

National Grid¹ invites you to take part in the 2021 annual Quarterly System Entry Capacity (QSEC) auction which will take place on Business Days from the **15th March 2021** to the **26th March 2021**.

The auction is for Quarterly Firm NTS Entry Capacity for the transaction period 1st October 2022 to the 30th September 2037. Users can make applications for each calendar quarter within this period.

The provisions of the Uniform Network Code (UNC)² shall apply to this invitation, the 2021 auction for QSEC and any bids made and rejected or accepted pursuant to such auction, and any subsequent allocation of QSEC. Words and expressions which are capitalised but not defined in this invitation, but which are defined in the UNC, shall have the meanings given to them in the UNC.

Please refer to the Joint Office of Gas Transporters website (<u>http://www.gasgovernance.co.uk/livemods</u>) with regards to any modification of the UNC which may affect capacity during the transaction period.

Each bidding window in the QSEC auction will commence at 08:00 and close at 17:00 on each day³ specified below, subject to the stability measure being reached. A QSEC bid may be withdrawn or amended until but not after 17:00 on each day.

Auction Dates

National Grid will conduct the annual QSEC auction from the 15th March 2021 to the 26th March 2021 on the annual invitation dates listed below.

- Monday 15th March
- Tuesday 16th March
- Wednesday 17th March
- Thursday 18th March
- Friday 19th March
- Monday 22nd March
- Tuesday 23rd March
- Wednesday 24th March

¹ Pursuant to Section B 2.2.1 (d) of the Uniform Network Code (UNC) Transportation Principal Document (TPD), National Grid Gas plc ("National Grid") in its role as holder of the Gas Transporter Licence in respect of the National Transmission System (NTS) (the "Licence"). ² Including in particular, but not limited to, Section B of the UNC TPD.

³ As specified in Section B 2.2.9(a) of the UNC TPD.

- Thursday 25th March
- Friday 26th March

National Grid shall close the annual QSEC auction on the last date listed, or before if the stability measure is reached.⁴ The earliest this can occur is after Interim Bid Window 2 (IBW2) from 16th March 2021 onwards.

National Grid reserves the right to amend the auction timings and withdraw and re-issue the auction invitation. Furthermore, although unlikely, National Grid reserves the right to raise UNC Modifications, requesting urgency or otherwise.

Entry Capacity Regime

It is a User's responsibility to understand the NTS Entry Capacity regime, determine a strategy and bid accordingly. For further information on the regime and QSEC auctions please refer to Appendix 3 onwards.

As stated previously, please refer to the Joint Office of Gas Transporters website with regards to any outstanding modifications which may affect capacity during this transaction period via <u>http://www.gasgovernance.co.uk/livemods</u>).

Entry Capacity Retainers

In accordance with UNC TPD Section B2.15 and in particular the NTS Entry Capacity Substitution (ECS) Methodology Statement, National Grid opened the retainer window on 19th and 21st January 2021, for Shippers to participate and take out a retainer at Aggregated System Entry Points (ASEPs), where they wanted to exclude available Entry Capacity from being treated as Substitutable Capacity⁵ without having to buy it.

There were no retainers requested during the retainer windows on the dates above.

NTS Entry Capacity Offered

National Grid invites offers in respect of the Unsold NTS Entry Capacity⁶, as shown in Appendix 2.

Requests for Incremental Obligated Entry Capacity that cannot be met through substitution may be allocated as Non-Obligated Incremental Entry Capacity at the sole discretion of National Grid.

Entry Capacity Substitution

The NTS ECS Methodology Statement can be found via the following link: <u>https://www.nationalgrid.com/uk/gas-transmission/capacity/capacity-methodology-statements</u>

The principle of NTS Entry Capacity Substitution may be applied to meet demand for Incremental Obligated Entry Capacity (IOEC) in the March 2021 QSEC auction. Entry Capacity Substitution means that where IOEC is required, this should first be met by reducing available obligated entry capacity at other ASEPs (the "donor" ASEPs) where capacity is unsold and not otherwise excluded from substitution, before undertaking investment in new infrastructure. The result of this is that, when the substitution obligation is applied, NTS Entry Capacity that is not booked can be moved to other ("recipient") ASEPs and will not be available as unsold obligated capacity at the original (donor) ASEP in future auctions. In addition to this, capacity that has been reserved under the Planning and Advanced Reserve of Capacity Agreement (PARCA) process will be excluded from substitution.

Whilst National Grid may be able to satisfy a request for capacity via the release of non-obligated capacity or via substitution the only way to guarantee release of incremental capacity is via the PARCA process.

⁴ In accordance with the provisions of the UNC and, in particular, TPD Section B2.2.17

⁵ As defined in the NTS ECS Methodology Statement.

⁶ In accordance with its obligation pursuant to UNC TPD Section B2.2.

Information Provision

Information will be published by National Grid after each Interim Bid Window (IBW) on each Business Day the auction remains open, for each Aggregate System Entry Point (ASEP) and each relevant quarter. This can found on Gemini report screens (Product>Publish Results>MoS Results>screens) and will be available by 20:00⁷, and on the National Grid website as soon as practicable via <u>http://mip-prd-web.azurewebsites.net/EntryCapacityAuctions/Index</u> by selecting the following criteria:

Auction Type:	Quarterly System Entry Capacity
Report Type:	Bid Window Results
From Month/Year:	Oct-22
To Month/Year:	Sept-37

National Grid will inform Users of their QSEC capacity allocation, in accordance with UNC TPD Section B.2.6.7, within Gemini no later than two calendar months after the last annual invitation date and therefore, at the latest by 26th May 2021. Allocation information will be published by National Grid within Gemini and also on the National Grid website in accordance with the UNC TPD Section B2.14.2 for each ASEP and each relevant period via:

http://mip-prd-web.azurewebsites.net/EntryCapacityAuctions/Index by selecting the following criteria:

Auction Type:	Quarterly System Entry Capacity
Report Type:	Allocation Results
From Month/Year:	Oct-22
To Month/Year:	Sept-37

Reserve/Incremental Prices

In addition to UNC678A ("Amendments to Gas Transmission Charging Regime") implemented 1st October 2020, in December 2020, Ofgem approved UNC727 for implementation from 1st October 2021 which will increase the storage discount applied from 50% to 80%.

More information about these modifications can be accessed via: <u>https://www.gasgovernance.co.uk/closedmods</u>

Additional modifications may also impact the payable prices and other aspects of the charging regime for the Gas Year starting 1st October 2021. Market participants should keep up to date and engage with live UNC changes and be aware of those with Ofgem for decision via the Joint Office of Gas Transporters (<u>http://www.gasgovernance.co.uk/livemods</u> and <u>http://gasgovernance.co.uk/index.php/withofgem</u>).

Please note that the charges included in this notice are calculated based on current methodology, and are in line with the UNC at the time of writing.

Entry Capacity reserve prices are included in Appendix 1 of this letter. For the purposes of capacity step prices used in the QSEC Auction, these will be an additional 5% of the applicable Reserve Price or 0.00001 p/kWh/d, whichever is the greatest. The number of steps applicable for each Entry Point is as per Appendix D of the Transportation Statement (see link in Appendix 1).

Other Information

National Grid's views on potential future demand for NTS Entry Capacity and its implications for the Gas National Transmission System are reflected by the supply scenarios described in its current Gas Ten Year Statement which can be found via: <u>https://www.nationalgridgas.com/insight-and-innovation/gas-ten-year-statement-gtys</u>

High level information on the key drivers behind the Future Energy Scenarios (FES) within the Ten Year Statement can be found via: <u>https://www.nationalgrid.com/uk/gas-transmission/insight-and-innovation/future-energy-scenarios-fes</u>

National Grid's supply forecasts are built from information received from a combination of its FES consultation process and commercial sources. It is anticipated that long-term capacity (QSEC) auctions will provide a further source of information.

 $^{^{7}}$ In accordance with UNC TPD Section B.2.14.1

Please note that this invitation is being sent by e-mail via the Energy Networks Association. An Active Notification System (ANS) message will also be issued informing users that the invitation has been issued. The invitation will also be posted on the National Grid website via: <u>http://mip-prd-web.azurewebsites.net/EntryCapacityAuctions/Index</u>

and by selecting the following criteria:

Auction Type:Quarterly System Entry CapacityReport Type:Invitation LetterFrom/To Month/Year:Oct-22 to Sept-37

National Grid has put this document together with due care and in good faith. In the unlikely event of an error, National Grid reserves its right to correct the error, amend and re-issue the letter as required.

If you have any queries with regards to entry capacity, the auction mechanism, the Gemini system, or information provision then please do not hesitate to contact a member of the NTS Capacity Team on +44 (0)1926 654057. Alternatively, you can e-mail us regarding any capacity issues at <u>capacityauctions@nationalgrid.com</u>.

The relevant information relating to this auction (QSEC 2021) can be found in the following Appendices:

- Appendix 1 Entry Capacity reserve prices (p/kWh/day)
- Appendix 2 Entry Capacity Unsold Obligated Quantity Offered (kWh/day)
- Appendix 3 Useful sources relating to the Entry Capacity Regime and QSEC auctions
- Appendix 4 Potential Advisors for bidding strategies/other commercial advice

Yours faithfully,

NTS Capacity Team Gas Transmission national**grid**

Appendix 4

Potential Advisors for bidding strategies/other commercial advice

We have asked potential advisors to contact us if they wish to have their details included in the QSEC invitation letter.

Below is a list of those advisors that have responded, listed in alphabetical order.

Please note that National Grid has not vetted any requests and that inclusion in the list does not imply they are recommended by National Grid or meet any relevant professional standard. Users should satisfy themselves of the expertise of any potential advisor before engaging them.

The list is as follows;

1. Cal	vert Consultancy Ltd in a Elaine Calvert Nick Wye	association with WatersV +44(0)7879 431479 +44(0)1789 266811	Vye Associates elaine@calvertconsultancy.co.uk nick@waterswye.co.uk
2. Pö <u>y</u>	yry Management Consul Angus Paxton John Williams Websites:	lting +44 (0)1865 812 263 +44 (0)1865 812 262	angus.paxton@poyry.com john.williams@poyry.com www.poyry.com/
3. TP/	A Solutions Brian Withington MBE Sue Ellwood Website:	+44 (0)7831241211 +44 (0)1564 784725	brian@tpasolutions.co.uk sue@tpasolutions.co.uk www.tpasolutions.co.uk

Potential advisors wishing to be included in future lists should contact the NTS Capacity Team at National Grid.
