04 June 2021

Dear Sir or Madam,

**Re: 0762S - Adding the Retail Energy Code Company as a new User type to the Data Permissions Matrix**

Thank you for the opportunity to provide representation on the above noted Modification Proposal. Please find below Northern Gas Network's (NGN) comments in respect of this change.

**NGN supports this Modification Proposal.**

**Reason for support/opposition:**

Please summarise (in one paragraph) the key reason(s)

We support this modification as we believe the addition of the Retail Energy Code Company (RECCo) to the Data Permissions Matrix (DPM) should grant them access to UK Link data items, subject to Contract Management Committee (CoMC) approval, which they need under the third party services contract with Xoserve. Provision of this data should allow the RECCo to access the required data to aid in effective and efficient management of the REC. This allows provision of the data via the most efficient means under UNC, therefore furthering Relevant Objective f) *the promotion of efficiency in the implementation and administration of the Code.*

**Self-Governance Statement:**

Please provide your views on the self-governance statement.

This proposal should follow self-governance procedures as it only seeks to introduce 'Retail Energy Code Company' as a User Type in the DPM with the data items being managed by CoMC, and proposes no changes to party obligations, systems or processes, ,

**Implementation:**

What lead-time do you wish to see prior to implementation and why?

This proposal could be implemented sixteen business days after Modification Panel approval, subject to no appeal being raised.

**Impacts and Costs:**

What analysis, development and ongoing costs would you face?

No required analysis, development or ongoing costs have been identified for NGN as a result of this proposal.

**Legal Text:**

Are you satisfied that the legal text will deliver the intent of the Solution?

We believe that no legal text is required as this is an enabling modification only.

**Are there any errors or omissions in this Modification Report that you think should be taken into account?**

Include details of any impacts/costs to your organisation that are directly related to this.

None identified.

**Please provide below any additional analysis or information to support your representation**

None.

I hope these comments will be of assistance and please contact me should you require any further information in respect of this response.

Yours sincerely,
