Support or oppose implementation?	Support
Relevant Objective:	f) Positive

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

SGN is supportive of this modification as it will allow the Central Data Service Provider (CDSP) to release data to the Retail Energy Code Company (RECCo).

This modification proposes to add the Retail Energy Code Company to the Data Permissions Matrix which will allow RECCo to request UNC related data when they have identified an instance where such data is required. Each data request from RECCo will be assessed by the CDSP against the Data Permissions Matrix.

If this modification is not approved then it may compromise the obligations set out in the Retail Energy Code reporting framework.

Self-Governance Statement: Please provide your views on the self-governance statement.

We agree that this modification follows the criteria for self-governance.

Implementation: What lead-time do you wish to see prior to implementation and why?

We believe that this modification could be implemented sixteen business days after a Modification Panel decision to implement, subject to no Appeal being raised. We are however mindful that there is a related IGT UNC modification (IGT155) and therefore both the IGT UNC and UNC modifications implementation dates should be aligned.

Impacts and Costs: What analysis, development and ongoing costs would you face?

None have been identified.

Legal Text: *Are you satisfied that the legal text will deliver the intent of the Solution?*

Not applicable.

Are there any errors or omissions in this Modification Report that you think should be taken into account? *Include details of any impacts/costs to your organisation that are directly related to this.*

None identified.

Please provide below any additional analysis or information to support your representation
