Representative:	Anna Stankiewicz
Organisation:	National Grid NTS
Date of Representation:	31 st August 2021
Support or oppose implementation?	Support
Relevant Objective:	f) Positive

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

As the proposer, National Grid NTS supports the implementation of this modification proposal. The new regulatory framework (RIIO2) and associated changes to the NTS Licence effective 1st April 2021 result in updates being required to the UNC to ensure correct terminology and alignment to the updated NTS Gas Transporter Licence Conditions. As this Modification will ensure that references within UNC correctly align to Conditions in the current NGG Licence it will therefore promote efficiency in the implementation and administration of the Code (as per Relevant Objective (f)).

Self-Governance Statement:

This Modification proposes housekeeping rather than policy or material changes, National Grid NTS therefore believes that this proposal meets the criteria for the application of self-governance procedures.

Implementation: *What lead-time do you wish to see prior to implementation and why?*

Implementation could be sixteen business days after a UNC Panel vote in favour of implementation, subject to no appeal being raised.

Impacts and Costs: *What analysis, development and ongoing costs would you face?*

None

Legal Text: *Are you satisfied that the legal text will deliver the intent of the Solution?*

Yes, we are satisfied that the legal text meets the intent of the solution.

Are there any errors or omissions in this Modification Report that you think should be taken into account? *Include details of any impacts/costs to your organisation that are directly related to this.*

No

Please provide below any additional analysis or information to support your representation

N/A
