UNC Modification Proposal 0769S - Adding Local Authorities as a new User type to the Data Permissions Matrix

Dear Bob,

Thank you for your invitation seeking representations with respect to the above Modification Proposal to which Cadent provides support.

Do you support or oppose implementation?

Support

Relevant Objective:

f) Positive

Reason for support/opposition:

We are supportive of this modification which would allow the CDSP to release data to Local Authorities once they have been added to the DPM and have agreed and signed the necessary third-party services contract. Local Authorities require data to allow them to engage with larger consumers in order to help them fulfil their Net Zero ambitions.

In addition, the modification would align the UNC with the REC v3 Data Access Schedule regarding the provision of information to Local Authorities.

Implementation

Implementation should be 16 business days after a Modification Panel decision to implement, subject to no Appeal being raised.

Impacts and Costs

None identified

Legal Text

This is an enabling modification only, required as per UNC TPD V5.5.2(j), and therefore no Legal Text is required.

Are there any errors or omissions in this Modification Report that you think should be taken into account?

Nothing further to add.

Please provide below any additional analysis or information to support your representation

Nothing further to add.

We trust that this information will assist in the compilation of the Final Modification Report. Please contact me on 07884 113385 (andy.clasper@cadentgas.com) should you require any further information.

Yours sincerely,

Andy Clasper
