#### Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

This proposal will likely reduce the impact of a shipper exiting the market therefore removing shipping services from third party suppliers.

#### Implementation: *What lead-time do you wish to see prior to implementation and why?*

As soon as possible to reduce the effects identified.

#### Impacts and Costs: *What analysis, development and ongoing costs would you face?*

We expect we will incur minimal costs, as we currently ship for ourselves.

#### Legal Text: *Are you satisfied that the legal text will deliver the intent of the Solution?*

Insufficient time to review the legal text.

**Are there any errors or omissions in this Modification Report that you think should be taken into account?** *Include details of any impacts/costs to your organisation that are directly related to this.*

We have concerns that although the process is intended to resolve the short-term issue of suppliers needing to arrange new shipping arrangements, it does not have an apparent end date and so these suppliers could operate under these new arrangements indefinitely. This means that the suppliers in question, could avoid resolving the issue if it is beneficial to them.

We believe that there should be a defined period in which a supplier can utilise these arrangements, to encourage said supplier to obtain a new shipper as soon as possible.
