# Basics of Pressure Service Mechanism at Bacton

# Summary Table of Changes

BBL

Topic	Change	Comment
Pressure Service	Insertion of pressure service agreement	New section

Interconnector

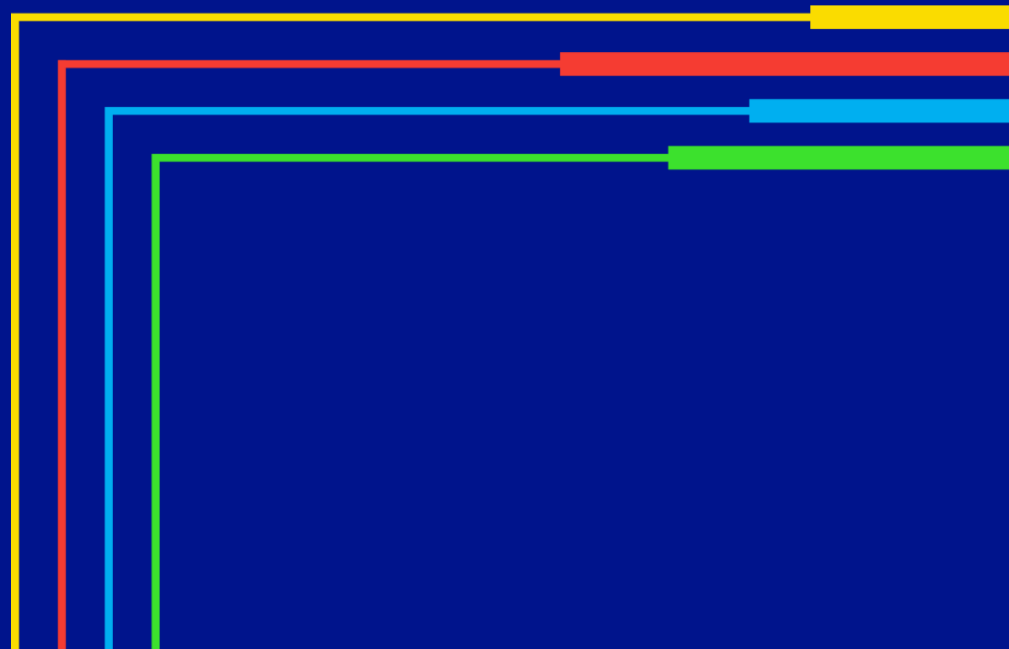

Topic	Change	Comment
Fee	Removal of references to payment within the agreement. This affects definitions in Annex B-1 and paragraphs 1.1, 1.2, 6 & 7 in annex B-3.	Charging for pressure service to be set out in a separate fee agreement.
Rationalise Text	Remove old paragraphs 1.3 to 1.5 in annex B-3.	Text redundant. Consistency with BBL agreement.
Pressures / Pressure Service	<ul style="list-style-type: none"> <li>- Clarify the AOP (para 2.1) and that there is a 2 tier requested pressure service (para 3).</li> <li>- Deadline for submitting requests pushed back to 17:00 (para 3).</li> <li>- Minor amendments to reflect revised arrangements regarding conditions/exceptions (paras 4 &amp; 5).</li> </ul>	Redrafting and consistency with BBL agreement.

# 02

## Non-pressure changes to NG- INT agreement

UNC mod proposal 787

# Summary Table of Changes

Topic	Change	Comment
Gas Quality	<ul style="list-style-type: none"> <li>- Water Dewpoint units changed from “°C from 1 to 69 barg” to “at 69 barg” (table A in Annexes A2 &amp; B2).</li> <li>- Deletion of text on payments relating to gas quality (B2 paras 1.1, 1.2 &amp; 6).</li> <li>- Deletion of texts relating to Odour (A2 para 3), forecasts of WI &amp; CV (B2 para 1.6) and Hydrocarbon dewpoint B2 para 8).</li> <li>- Updated text to reflect current operating arrangements and limitations on CO2 (B2 para 3).</li> </ul>	Changes can be generally be described as technical or operational updates, and removal of text considered to be obsolete e.g. KLC will only be run to support pressure (not for reasons of GQ)
Flow Rate Rules	<ul style="list-style-type: none"> <li>- Update Title to Flow Rate Rules (title).</li> <li>- Drafting updates for clarity (B4 para 1.5, 1.6 &amp; 2).</li> <li>- Various updates to reflect actual operational practice.(B4 para 2).</li> <li>- Delete duplicate template (B4 appendix A).</li> </ul>	General rationalisation of current text.
Capacity	<ul style="list-style-type: none"> <li>- Deletion of definition of “Common Services” and “Services”, as they no longer fit the revised Service Contract with PRISMA. (Annex D para 1.1 &amp; 4.2a).</li> <li>- New text to recognise INT has implemented PRISMA Secondary for transfers and surrenders (Annex D para 4.3g)</li> </ul>	PRISMA have implemented a new TSO Service Contract changing the definition of services offered to TSOs
General	<ul style="list-style-type: none"> <li>- Update name to Interconnector (from IUK) and updates to various defined terms (Annex B1 para 2).</li> <li>- Updates for technical reasons e.g. inclusion of additional references to ISO standards (Annex C).</li> <li>- Deletion of obsolete text required for BAL implementation purposes (Annex E para 2).</li> <li>- Drafting updates for clarity and consistency (Annexes C, E, G)</li> </ul>	Technical or drafting clarifications; consistency; better reflect current operational practices.
