OVERVIEW

The purpose of this document is to keep stakeholders informed of recent activity and progress in delivery the AUGE service.

Key points for September 2021:

- ▶ The second data request was issued to Xoserve. This provides AUGE with the most up-to-date data for use in analysis.
- ▶ We progressed new and refinement investigations, working alongside Xoserve to manage issues arising from delayed and unavailable data sets.
- ▶ We completed much of the analysis on the other contributors.
- ▶ We completed high-level assessments for two potential innovation business cases, with a recommendation to progress to detailed assessment including ROM costs. Shippers are to discuss these under pre-modification workgroup activities.
- ▶ We updated Shippers of ongoing progress through the Early Engagement Meeting (September AUG Sub-Committee).

As the AUGE, we welcome engagement with all stakeholders. Please contact us at auge@engage-consulting.co.uk.
