

Meter By-Pass PAC Action 1104

DWG Meeting (0763R Review of
Gas Meter By-Pass Arrangements)
27th January 2022

Provided by:

PAC Action 1104:

Reference Shipper Consumption Adjustment
Validation – Correla to investigate what validation
processes are followed and thereafter provide an
update to the 0763R 'Review of Gas Meter By-Pass
Arrangements' Workgroup

PAC Action 1104

- PAC Action 1104 resulted following discussion about Meter By-Pass Consumption Adjustment (CA) validation at the Performance Assurance Committee (PAC) meeting in Nov'21
- CAs are required for period when By-Pass is physically 'Open' (otherwise actual consumption will remain as Unidentified Gas)
- System validations ensure CA submitted by relevant shipper but no automated validation is applied to CA volume
- Manual sense checks are carried out on the CA volume to prevent erroneous volumes being processed
- Any issues are typically resolved via Data Clarification (DC)

Thank you
