Dear Sir or Madam,

Re: 0804 Consequential UNC changes for Switching SCR (REC 3.0)

Thank you for the opportunity to provide representation on the above noted Modification Proposal. Please find below Northern Gas Network's (NGN) comments in respect of this change.

NGN supports this Modification Proposal.

Reason for support/opposition:

Please summarise (in one paragraph) the key reason(s)

We support this Significant Code Review (SCR) modification as it facilitates the alignment of the Uniform Network Code (UNC) with the Retail Energy Code (REC) V3 Central Switching Service (CSS) from the go live date, therefore furthering Relevant Objective f) *the promotion of efficiency in the implementation and administration of the Code.*

Self-Governance Statement:

Please provide your views on the self-governance statement.

As this is an SCR modification Authority Direction applies.

Implementation:

What lead-time do you wish to see prior to implementation and why?

Implementation should be aligned with the CSS go live date (currently expected 18/07/22).

Impacts and Costs:

What analysis, development and ongoing costs would you face?

NGN has identified no analysis or development required and no ongoing costs incurred as a result of this proposal.

Legal Text:

Are you satisfied that the legal text will deliver the intent of the Solution?

NGN acknowledges that this legal text has been developed by Cadent on behalf of the Gas Transporters, and has reviewed in various forums.

Are there any errors or omissions in this Modification Report that you think should be taken into account?

Include details of any impacts/costs to your organisation that are directly related to this.

None identified.
