Dear Joint Office,

Re: UNC 0810S Amendment of Transportation Principal Document Section V 14.1.1 and Annex-V5 to reflect updated Theft of Gas Process

Thank you for the opportunity to provide representation on the above noted Modification Proposal. Please find below Northern Gas Network's (NGN) comments in respect of this change.

NGN supports this Modification Proposal.

Reason for support

We support this Modification as we believe it removes reporting from the UNC, which will be made redundant by the implementation of Modification 0734S "Reporting Valid Confirmed Theft of Gas into Central Systems and Reporting Suspected Theft to Suppliers", therefore furthering Relevant Objective f) *Promotion of efficiency in the implementation and administration of the Code.*

Implementation:

As Self-Governance procedures are proposed, implementation could be sixteen business days after a Modification Panel decision to implement, subject to no Appeal being raised. We agree with the proposer's comment that this should be aligned to the implementation of Modification 0734S.

Impacts and Costs:

We do not see that this modification will have any material impact to NGN to implement the solution.

Legal Text:

We believe the legal text provided should deliver the Solution set out in the modification.

Are there any errors or omissions in this Modification Report that you think should be taken into account?

None identified.
