

UNC Representation received by Email

0818 - Releasing of unused capacity under a specific set of circumstances

Date: 16 September 2022

Organisation: Citizens Advice

Abstract:

Where appropriate those parties who are subject to this change should have the chance to be consulted as the Modification progresses. So if the Modification is intended to apply to only certain classes (class 1), those types of customers, and any representatives or associations, are notified and consulted on this potential change ahead of formal UNC consultation processes.

It feels like good practice to ensure those affected are aware of this and given the opportunity to feed into workgroups or through discussions outside of the formal UNC process (i.e. webinars).
