Support or oppose implementation?	Support
Relevant Objective:	a) Positive/Negative/None * <i>delete as appropriate</i> b) Positive/Negative/None * <i>delete as appropriate</i>
Relevant Charging Methodology Objective:	Not Applicable

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

We would support the proposal as we see it as an improvement on the current arrangements. By including an options payment within the scheme, we believe this will encourage more customers to consider voluntary curtailment.

Implementation: What lead-time do you wish to see prior to implementation and why?

We think implementation in time for this Winter should be the aim and would advocate mid-October if support is generally positive. Although this maybe ambitious we see it as a good timeframe to aim for.

Impacts and Costs: What analysis, development and ongoing costs would you face?
