

Executive Summary: 0837 - Updating all UNC references of “National Grid” to “National Gas Transmission” to reflect the sale of National Grid Gas plc.

Item	Key Messages
Purpose of Modification	National Grid finalised the majority sale of its Gas Transmission business on 31st January 2023. The legal entity that carries on the gas transmission business and holds the gas transporter licence remains the same; it simply changed its name to National Gas Transmission following the sale. This housekeeping modification proposes to update all references of National Grid, National Grid NTS, National Grid Gas and National Grid Company to National Gas Transmission to align with the licence holder.
Proposed Solution	Defined terms will be updated in General Terms, Section B. All instances of National Grid, National Grid NTS, National Grid Gas and National Grid Company have been amended to National Gas Transmission. Updates will be clearly marked using track changes.
Impacted Parties	Low: All NTS Users
Consumer Benefits and Relevant Objectives	This modification is limited to housekeeping changes which have no impact on Consumers As this modification is updating references to reflect a change in company name, the broader Standard Relevant Objective f) (Promotion of efficiency in the implementation and administration of the Code) is better facilitated by ensuring that UNC is reflective of the licence.
Other	This modification has been submitted as a fast-track self-governance. It is housekeeping modification as it seeks only to update the Gas Transporters licence holder’s company name and two website links.
