#### **Document Purpose**

This document is intended to provide a single view of a change as it moves through the change journey. The document is constructed in a way that enables each section to build upon the details entered in the preceding section. The level of detail is built up in an incremental manner as the project progresses.

The template is aligned to the Change Management Procedures, as defined in the CDSP Service Document. The template is designed to remove the need for duplication of information. Where information is required in one section but has been previously captured in a previous section, the previous section will be referenced.

The summary table on the front page shows the history and the current status of the Change Proposal.

	available to ensure the scope can be changed to meet the final UNC modifications.
	This change needs to be delivered by 2019 in order to meet the legally defined deadlines.
	Change Overview:
	A GB Charging & IP PARCA Incremental HLE was issued to National Grid as an output from the work undertaken as part of XRN4262. This HLE provides an indicative timeline and cost for this change. National Grid would expect the change to be delivered in-line with these parameters.
	The project is expected to start in January 2018 and end date Q4 2019, and involve two system implementation periods.
Reason(s) for proposed service change	The reason for this particular Change Proposal is to ensure the Gemini system is compliant with the Modifications related to GB Charging and the IP PARCA Incremental process.
Status of related UNC Mod	UNC Mod 621 <sup>3</sup> : Amendments to Gas Transmission Charging Regime – Workgroup
	UNC Mod 611S: Amendments to the Firm Capacity Payable Price at Interconnection Points – Implemented into the UNC

	UNC Mod 611S: Amendments to the Firm Capacity Payable Price at Interconnection Points
	UNC Mod 597: Rules for the release of Incremental Capacity at Interconnection Points
Benefits of change	By undertaking this change National Grid will meet the compliance obligation deadlines as defined in the sections above. National Grid proposes to utilise existing Gemini functionality wherever possible to reduce costs, whilst still ensuring Gemini User interface remains intuitive. National Grid will continue to make improvements to Gemini where possible, whilst keeping costs to a minimum.

Please provide an assessment of the priority of this change from the perspective of the industry.	<ul><li>☑ High</li><li>☐ Medium</li><li>☐ Low</li></ul>
	Rationale for assessment: Significant volume of change for 2019 and compliance with legislation by the dates defined.

#### A) Customer view of impacted service area(s)

For a definition of the Service Areas, please see the 'Charge Base Apportionment Table' within the <u>Budget and Charging Methodology</u>. Please indicate the service area(s) that are understood to be impacted by the change. Please enter 'unknown' if relevant. Where the change is likely to impact more than one service area please indicate the percentage split of the impact across the impacted service areas. For example if it is split equally across two service areas then enter 50% in the 'split' against each service area.

National Grid & Gemini Users

B) If the change is anticipated to require the creation of a new service area and service line please give further details stating proposed name of new service area and title of service line:

#### Specific Service Changes Only:

Please detail the proposed methodology (or amendment to the existing methodology) for determining Specific Service Change Charges.

Please detail the proposed basis (that is, Charging Measure and Charging Period) for determining Specific Service Change Charges in respect of the Specific Service.

### Section 3: ROM Request Acceptance

Is there sufficient detail within the ROM Request to enable a ROM Analysis to be produced?	□Yes □No
If no, please define the additional details that are required.	

If the ROM Request is not accepted. Please forward this document to the Portfolio Office for onward transmission to the Change Management Committee

### Section 4: ROM Analysis

This ROM is Xoserve's response to the above Evaluation Service Request. The response is intended to support customer involvement in the development of industry changes.

Should the request obtain approval for continuance then a Change Proposal must be raised for any further analysis / development.

#### Disclaimer:

This ROM Analysis has been prepared in good faith by Xoserve Limited but by its very nature is only able to contain indicative information and estimates (including without limitation those of time, resource and cost) based on the circumstances known to Xoserve at the time of its preparation. Xoserve accordingly makes no representations of accuracy or completeness and any representations as may be implied are expressly excluded (except always for fraudulent misrepresentation).

Where Xoserve becomes aware of any inaccuracies or omissions in, or updates required to, this Report it shall notify the Network Operators' Representative as soon as reasonably practicable but Xoserve shall have no liability in respect of any such inaccuracy or omission and any such liability as may be implied by law or otherwise is expressly excluded.

This Report does not, and is not intended to; create any contractual or other legal obligation on Xoserve.

#### **ROM Analysis**

#### **Change Assessment**

High level indicative assessment of the change on the CDSP service description, on UKLink and any alternative options if applicable

#### **Change Impact:**

Initial assessment of whether the service change is / would have:

- a restricted class change,
- a priority service change
- an adverse impact on any customer classes

#### **Change Costs (implementation):**

An approximate estimate of the costs (or range of costs) where options are identified

#### Change Costs (on-going):

The approximate estimate of the impact of the service change on service charges

#### Timescales:

Details of timescale for the change i.e. 3months etc.

Details of when Xoserve could start this change i.e. the earliest is release X.

#### **Assumptions:**

Any key assumptions that have been made by Xoserve when providing the cost and or timescale

#### Dependencies:

Any material dependencies of the implementation on any other service changes

#### Constraints:

Any key constraints that are expected to impact the delivery of the service change

## Appendix One: Glossary

Term	Definition
Adverse Impact	A Service Change has or would have an Adverse Impact on Customers of a particular
	Customer Class if:
	(a) Implementing the Service Change would involve a modification of UK Link which
	would conflict with the provision of existing Services for which such Customer Class is a Relevant Customer Class;
	(b) the Service Change would involve the CDSP disclosing Confidential Information relating to such Customers to Customers of another Customer Class or to Third Parties; (c) Implementing the Service Change would conflict to a material extent with the Implementation of another Service Change (for which such Customer Class is a
	Relevant Customer Class) with an earlier Proposal Date and which remains Current, unless the Service Change is a Priority Service Change which (under the Priority Principles) takes priority over the other Proposed Service Change; or
	(d) Implementing the Service Change would have an Adverse Interface Impact for such Customers.
General Service	A service provided under the DSC to Customers or Customers of a Customer Class on a uniform basis.
Non-Priority	A Service Change which is not a Priority Service Change
Service Change	
Priority Service	A Modification Service Change;
Change	or
	A Service Change in respect of a Service which allows or facilitates compliance by a Customer or Customers with Law or with any document designated for the purposes of Section 173 of the Energy Act 2004 (including any such Law or document or change
	thereto which has been announced but not yet made).
Relevant	A Customer Class is a Relevant Customer Class in relation to a Service or a Service
Customer class	Change where Service Charges made or to be made in respect of such Service, or the
	Service subject to such Service Change, are or will be payable by Customers of that Customer Class
Restricted Class	Where, in relation to a Service Change, not all Customer Classes are Relevant
Change	Customer Classes, the Service Change is a <b>Restricted Class Change</b> ;
Service Change	A change to a Service provided under the DSC (not being an Additional Service), including:  (i) the addition of a new Service or removal of an existing Service; and  (ii) in the case of an existing Service, a change in any feature of the Service specified in the CDSP Service Description, and any related change to the CDSP Service Description
Specific Service	A service (other than Additional Services) available under the DSC to all Customer or
	Customers of a Customer Class but provided to a particular Customer only upon the order of the Customer.
