Document Purpose

This document is intended to provide a single view of a change as it moves through the change journey. The document is constructed in a way that enables each section to build upon the details entered in the preceding section. The level of detail is built up in an incremental manner as the project progresses.

The template is aligned to the Change Management Procedures, as defined in the CDSP Service Document. The template is designed to remove the need for duplication of information. Where information is required in one section but has been previously captured in a previous section, the previous section will be referenced.

The summary table on the front page shows the history and the current status of the Change Proposal.

General Service Changes Only (please ensure that either A or B below is completed)

A) Customer view of impacted service area(s)

For a definition of the Service Areas, please see the 'Charge Base Apportionment Table' within the [Budget and Charging Methodology](#). Please indicate the service area(s) that are understood to be impacted by the change. Please enter 'unknown' if relevant. Where the change is likely to impact more than one service area please indicate the percentage split of the impact across the impacted service areas. For example if it is split equally across two service areas then enter 50% in the 'split' against each service area.

B) If the change is anticipated to require the creation of a new service area and service line please give further details stating proposed name of new service area and title of service line:

Specific Service Changes Only:
Please detail the proposed methodology (or amendment to the existing methodology) for determining Specific Service Change Charges.
Please detail the proposed basis (that is, Charging Measure and Charging Period) for determining Specific Service Change Charges in respect of the Specific Service.
Impacts to UKLink System or File Formats
Please mention if there are any expected impacts to UK Link Systems/File Formats. Any changes to it will need UK Link Committee approval If it has already been through UK Link committee then please mention the date it was taken to the committee and detail the outcome

7.) Estimated impact of the service change on service charges		

N/A

8.) Please detail any pre-requisite activities that must be completed by the customer prior to receiving or being able to request the service.

The following documents will need to be in place:0

1. Confidentiality Agreement
2. Sales Agreement

PCW will need to assess the impact/changes required to their internal systems.

Implementation Options

Please provide details on any alternative solution/implementation options:

This should include:

- (i) a description of each Implementation Option;
- (ii) the advantages and disadvantages of each option
- (iii) the CDSP preferred Implementation Option

Background

Under a Distribution Network driven change order Xoserve has completed an initial design phase for an Application Programming Interface (API) solution to meet the needs of a Competition and Markets Authority (CMA) directive to provide data to Price Comparison Websites (PCWs) to facilitate domestic consumer switches.

Xoserve has also already identified a strategic roadmap to move towards greater 'machine to machine' API integration, in order to introduce more efficiency and flexibility in terms of Xoserve's customer's access to data and to support future business improvement drivers.

The delivery of the core API Platform will therefore be managed under an internal Xoserve infrastructure change budget and is out of scope of this BER.

The PCW service will leverage the API platform and is in scope of the BER.

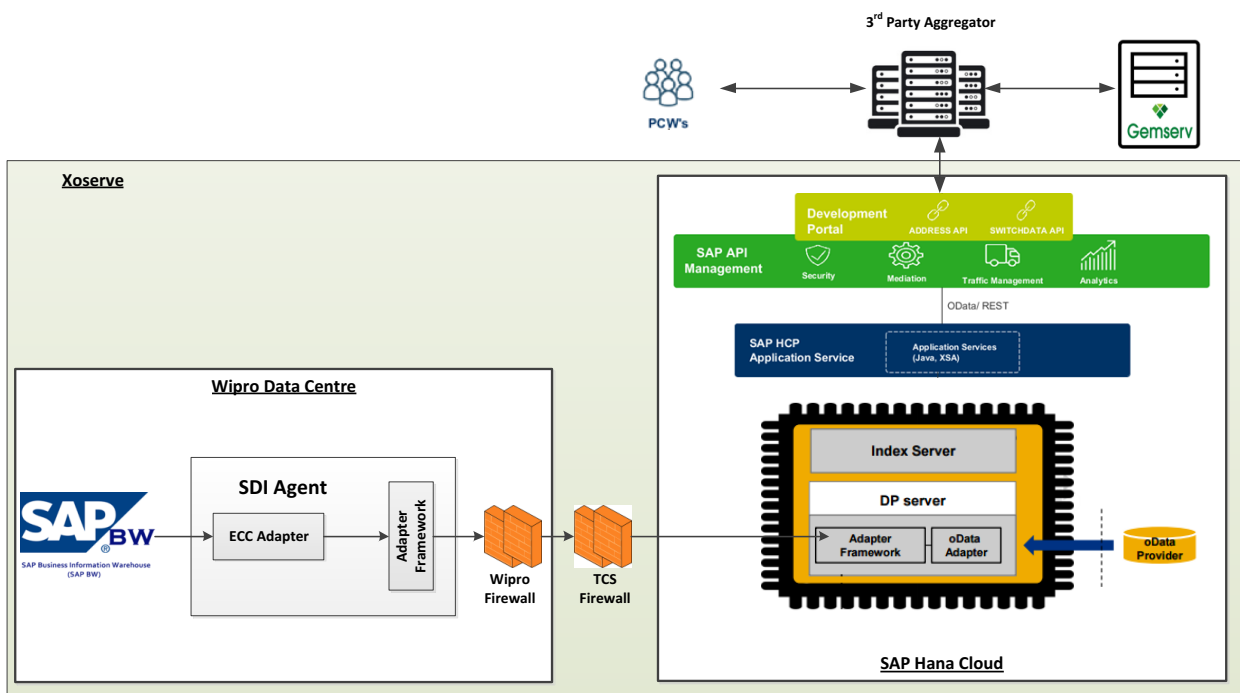

API Platform Design

The API platform will use a Smart Data Integration service within the HANA Cloud Platform (HCP) to replicate address and "Switch Gas Supplier" data from New UK Link into the HANA Cloud Platform tables.

Both address and "Switch Gas Supplier" tables will be exposed as API services using the HCP application services enabling them to be consumed within SAP API Management HCP service to:

- Securely share with consumers of the API digital assets (data)
- Allow developers (e.g. PCWs) to search, discover and test APIs
- Enable traffic management
- Allow performance monitoring of the API calls

With the introduction of a 3rd party aggregator, this will allow PCW's to request both Gas and Electricity data at the same time.

Solution Options

1. Do nothing –

Xoserve will continue to fund the delivery of the PCW API.

2. Delivery of PCW API (Gas Solution Only)

The PCW service will comprise of two APIs,

- **Address API** – the API will be used to get valid address for a given post code (mandatory) and house number (optional) or house name (optional)

- Output

1. Address ID
2. Sub- Building Name
3. Building Name
4. Building Number
5. PO Box Number
6. Delivery_Point_Alias
7. Dependent_Street
8. Principal Street (Street)
9. Double Dependent Locality
10. Dependent Locality
11. Post Town
12. County
13. Postcode
14. Country

- **SwitchGasData API** – to read MPRN data attributes for a given address used when switching gas suppliers

- Output

<ADDRESS>

1. Address ID
 2. Sub-Building Name
 3. Building Name
 4. Building Number
 5. PO Box Number
 6. Delivery_Point_Alias
 7. Dependent_Street
 8. Principal Street (Street)
 9. Double Dependent Locality
 10. Dependent Locality
 11. Post Town
 12. County
 13. Postcode
 14. Country
- <SWITCHING>
15. Meter Point Reference Number (MPRN)
 16. Meter Serial Number (MSN)
 17. Local Distribution Zone (LDZ) ID
 18. Meter Mechanism Code

- 19. Meter Capacity
- 20. Current Supplier ID (short code)
- 22. Gas Transporter (GT) ID
- 22. Smart Meter Equipment Technical (SMETs) code
- 23. Annual Quantity (AQ)

The key Business requirements of the change are:

- Ensure data required by CMA (for the Price Comparison Websites) is available as follows:
 - MPRN, Address including Postcode, Meter Serial Number, Meter mechanism code (Credit or Pre-Payment), Meter Capacity, Supplier ID.
- Ensure services to be provided can accommodate up to 30 Price comparison Websites.
- Ensure service is available 24x7, 365 days (based on 99.5% availability).
- Development and administration of the confidentiality agreement and service agreement with required parties.
- Annual reporting to identify the service recipients who have signed up to the confidentiality agreement and service agreement.
- All appropriate Information security requirements will be incorporated into the proposed design

CDSP Preferred Option

PCW API Service

Restricted Class Changes only

Is there any change in the view of the CDSP on whether there would be an 'Adverse Impact' on customers outside the relevant customer class(es)?

Yes (please give detail below)

No

Dependencies:

Mod 0593V – Provision of access to Domestic Consumer data for Price Comparison Websites and Third Party Intermediaries (TPIs) must be approved before any service is made live.

This is an enabling modification seeking to grant permission to release domestic consumer data to PCW's/PTIs. Current status: with Ofgem to approve, panel recommended approval on 21st September.

Constraints:

None identified

Benefits:
<ul style="list-style-type: none">• Xoserve will be compliant with the CMA order• Provides gas data to PCW's to aid switching
Impacts:
None identified
Risks:
None identified
Assumptions:
Information Security:
The solution will be compliant with the Data Protection Act.
Out of scope:
Delivery of any changes to the systems within the PCW's estate.

Appendix One: Glossary

Term	Definition
Adverse Impact	<p>A Service Change has or would have an Adverse Impact on Customers of a particular Customer Class if:</p> <p>(a) Implementing the Service Change would involve a modification of UK Link which would conflict with the provision of existing Services for which such Customer Class is a Relevant Customer Class;</p> <p>(b) the Service Change would involve the CDSP disclosing Confidential Information relating to such Customers to Customers of another Customer Class or to Third Parties;</p> <p>(c) Implementing the Service Change would conflict to a material extent with the Implementation of another Service Change (for which such Customer Class is a Relevant Customer Class) with an earlier Proposal Date and which remains Current, unless the Service Change is a Priority Service Change which (under the Priority Principles) takes priority over the other Proposed Service Change; or</p> <p>(d) Implementing the Service Change would have an Adverse Interface Impact for such Customers.</p>
General Service	A service provided under the DSC to Customers or Customers of a Customer Class on a uniform basis.
Non-Priority Service Change	A Service Change which is not a Priority Service Change
Priority Service Change	<p>A Modification Service Change;</p> <p>or</p> <p>A Service Change in respect of a Service which allows or facilitates compliance by a Customer or Customers with Law or with any document designated for the purposes of Section 173 of the Energy Act 2004 (including any such Law or document or change thereto which has been announced but not yet made).</p>
Relevant Customer class	A Customer Class is a Relevant Customer Class in relation to a Service or a Service Change where Service Charges made or to be made in respect of such Service, or the Service subject to such Service Change, are or will be payable by Customers of that Customer Class
Restricted Class Change	Where, in relation to a Service Change, not all Customer Classes are Relevant Customer Classes, the Service Change is a Restricted Class Change ;
Service Change	<p>A change to a Service provided under the DSC (not being an Additional Service), including:</p> <p>(i) the addition of a new Service or removal of an existing Service; and</p> <p>(ii) in the case of an existing Service, a change in any feature of the Service specified in the CDSP Service Description, and any related change to the CDSP Service Description</p>
Specific Service	A service (other than Additional Services) available under the DSC to all Customer or Customers of a Customer Class but provided to a particular Customer only upon the order of the Customer.
