2.2 Performance monitoring

2.2.1 The CDSP is responsible for monitoring its performance of the Services against the applicable Performance Standard in the Services Description.

2.3.3 Such information retention is subject to the Contract Assurance Audit in accordance with paragraph 3.5.1(d).

2.4 Business Continuity

2.4.1 The CDSP shall establish, maintain and implement a plan (**Business Continuity Plan**) setting out the basis on which, and the extent to which and priority with which, the CDSP will continue to provide Services in case of an event which disrupts the CDSP's normal business processes.

2.4.4 The objective of the Business Continuity Plan is, in the event of a business continuity incident, to ensure business critical processes are maintained to a minimally acceptable level until operations affected by the incident are recovered; and, in the case of loss of systems, to ensure arrangements are in place for the recovery of critical systems within specified timescales.

2.4.5 The CDSP shall:

- (a) review its Business Continuity Plan, annually or more frequently if it deems necessary, including to reflect any changes in its business, the Services or any other provision of the DSC, or the result of an exercise under paragraph 2.4.6;

- 2.5.3 The Information Security Arrangements may include, with the approval of the Committee, reasonable requirements (beyond what is contained in the UK Link Manual) for cooperation by Customers in order to support or facilitate the CDSP's implementation of such arrangements.

2.5.4 The CDSP shall:

- (b) discuss with the Committee the result of each review and any revisions or updates it proposes to make to the Information Security Arrangements; and
- (c) revise or update the Information Security Arrangements following each such review, taking into account any views of the Committee

2.5.5 The CDSP shall determine in consultation with the Committee what details of the Information Security Arrangements (including each update or revision) should be made available to Customers (including any such requirements as referred to in paragraph 2.5.3) and shall provide such details to Customers.

2.5.6 The Information Security Arrangements are subject to audit as provided in paragraph 3.5.1(c) and (so far as outside the scope of that audit) paragraph 3.5.1(d).

2.5.7 Unless the Committee decides otherwise in a particular case and except in the case of a Data Breach having occurred during the previous 12 months, the Information Security Arrangements (and the audit thereof under paragraph 3.5.1) shall operate as sufficient evidence of compliance for the purposes of Clause 8.2(e) of the DSC Terms and Conditions.

3 Reporting and audit

- (ii) such failure has not been remedied and/or is continuing after the dispute escalation procedures in paragraph 5.3.2(a) to (c) have been exhausted or (if there is no dispute as to such failure) for a period of 3 months or more after the CDSP notified the Customer of the failure,

but excluding information which is to be provided to the Credit Committee under the Credit Policy;

- (a) Costs incurred for the quarter, and cumulatively for the CDSP Year to the end of the quarter, in the following categories:
 - (i) Service Costs; and

3.3 Ad-hoc reporting

- 3.3.1 If the Committee considers that it requires any further report or information from the CDSP in order to discharge its functions in connection with the management of the DSC, the Committee will discuss such requirement with the CDSP.
- 3.3.2 Following such discussion the Committee may request any such further report or information from the CDSP and the CDSP shall provide the requested report or information unless it is not practicable or lawful for it to do so.

3.4 Confidentiality

- 3.4.1 Notwithstanding any other provision of this Document, the CDSP shall not, in reporting to the Committee or in any discussion with the Committee, disclose the identity of a particular Customer unless:
- (a) the Customer has consented to such disclosure;
 - (b) in the context of any given matter, the identity of the Customer has already become known to the Committee other than through disclosure by the CDSP which was in breach of the confidentiality provisions of the DSC Terms and Conditions;
 - (c) the identity of the Customer is apparent from information which the CDSP is required under the DSC to provide to the Committee; or
 - (d) the report or discussion concerns a dispute with the Customer which has not been resolved after the steps in paragraph 5.3.2(a) to (c), and the CDSP considers that disclosure of the identity of the Customer is in the interests of Customers generally or of achieving the DSC Objectives.
- 3.4.2 Where any paper prepared for, or the minutes of a meeting of, the Committee identify a particular Customer (as permitted in paragraph 3.4.1):
- (a) such paper or minutes shall be made available to Customers only (and, if on a website, on an appropriately restricted area); and
 - (b) any version of such paper or minutes made more widely available shall exclude such identity unless it is already public without breach of the confidentiality provisions of the DSC Terms and Conditions.

3.5 Audit

- (a) audit of its annual accounts to be undertaken annually in accordance with Section 475 of the Companies Act 2006; and

 - (ii) such further matters contained in any such audit report as the Committee may (after discussion with the CDSP) require, unless this would breach a requirement in Law or binding duty of confidence of the CDSP.

3.5.3 The purpose of the Contract Assurance Audit is to provide assurance to Customers and the Committee that the CDSP is complying in all material respects with the requirements of the DSC (other than where Customers are directly aware of such compliance through the provision of Services), including but not limited to the requirements in paragraphs 2.2, 2.3 and 2.4 and the provisions of the Budget and Charging Methodology.

3.5.4 In relation to the Contract Assurance Audit:

- (b) the scope shall not include anything within the scope of the audits referred to in paragraph 3.5.1(a), (b) or (c), or any other matter for which the Committee is satisfied that the internal controls of the CDSP provide adequate assurance of compliance; and
- (c) the CDSP may (with a view to cost-saving) propose to the Committee that all or any part of the audit shall be carried out internally by the CDSP, in which case:
 - (i) the CDSP shall demonstrate to the Committee how such audit or part of the audit will be conducted on an objective basis; and
 - (ii) it is the Committee's decision whether to accept the proposal or require an external auditor.

3.5.5 Where an audit report contains a recommendation for any action by the CDSP which goes beyond what is required for compliance with Law or the DSC, the CDSP may seek guidance from the Committee on its proposals for compliance with such recommendation.

3.5.6 It is noted that a Service provided by the CDSP to the Transporters under the CDSP Service Description is the carrying out of an ISAE 3402 (or equivalent) assurance audit; and such audit is not an audit within the scope of this paragraph 3.5.

- (a) the CDSP shall so inform the Committee, as soon as reasonably practicable after the CDSP becomes aware thereof, and in any event before the Committee considers the matter; and
- (b) the Committee shall not decide in favour of such matter until and unless the Budget Amendment has been made in accordance with the requirements in the Budget and Charging Methodology.

4.3.2 The Committee is entitled to assume that each of the CDSP's Contract Management Representatives is authorised to take any decision (on matters within the scope of this Document) on behalf of the CDSP unless such representative gives advance notice to the contrary.

4.4 Remedial action plans

- 4.4.1 This paragraph 4.4 applies where there has been a material shortfall in levels of performance of Services (as provided in paragraph 3.1.1(a), or UK Link availability (as provided in paragraph 3.1.1(b)), or material failure to comply with any requirement (as provided in paragraph 3.1.1(e)), or where any audit report contains a finding of a material failure on the part of the CDSP.

4.6.1 If a dispute or disagreement arises between the CDSP and the Committee, in the course of implementing the procedures in this Document:

(a) the CDSP's Contract Management Representative(s) and the Committee shall attempt in good faith to resolve the matter promptly; and

(b) if, after discussion with the Contract Management Representatives, the Committee is of the view that the matter cannot be resolved at the level of the Contract Management Representatives, the Committee may require the CDSP to involve more senior personnel (up to and including the Chief Executive Officer of the CDSP) in the matter in dispute, and that such personnel shall meet with the Committee for that purpose.

4.6.2 If the matter is not resolved through discussions between the Committee and the Chief Executive Officer of the CDSP, then (without prejudice to the right of any Party to the DSC to commence proceedings in respect of a breach of the DSC) each of the CDSP and the Committee shall send a report in respect of the matter to each Party and the UNC Committee and (if either of them wishes, for information) to the Authority.

5.3.2 Where a dispute arises between the CDSP and a Customer:

- (a) such Parties shall attempt in good faith to resolve the dispute promptly;
- (b) unless another dispute or escalation procedure is specified in the DSC for such a dispute, the dispute shall be referred first to the Parties' Individual Contract Managers, who shall attempt to resolve the dispute in a manner satisfactory to all Parties to the dispute;

- (c) if the dispute cannot be resolved by the Individual Contract Managers within a maximum of ten (10) Business Days (or such longer period agreed between them) from the date on which it is referred under paragraph (b), the dispute shall be referred for resolution to the Director, Customer Engagement of the CDSP and an officer of an equivalent level of authority of the Customer; and
 - (d) if the dispute cannot be resolved by the officers referred to in paragraph (c) within a maximum of ten (10) Business Days (or such longer period agreed between them) from the date on which it is referred under paragraph (c), paragraphs 5.3.3 to 5.3.5 shall apply.
- 5.3.3 If dispute is of a technical nature or relates to the calculation of the Charges or other payments, it may be referred with the agreement of the Parties for determination by an Expert in accordance with Clause 30 of the DSC Terms and Conditions.
- 5.3.4 If any Party does not agree to the dispute being referred for determination in accordance with paragraph 5.3.3, or if the dispute is not of a technical nature, the Parties may enter into structured negotiations with the assistance of a mutual adviser appointed by the Centre for Dispute Resolution and the programme and structure for any negotiations shall be agreed between the Parties.
- 5.3.5 If the Parties fail to settle the dispute within fourteen (14) days after appointment of the mutual adviser, or if any Party does not agree to enter into structured negotiations, any Party may commence proceedings in respect of the dispute in accordance with Clause 31 of the DSC Terms and Conditions.
- 5.3.6 The Parties shall fulfil their respective obligations under the DSC insofar as is possible regardless of any outstanding dispute regarding the Services (without prejudice to the rights and obligations of any Party).
- 5.3.7 Each Party shall bear its own legal costs in connection with any dispute (subject to any award of costs made in proceedings under Clause 30 or 31 of the DSC Terms and Conditions, and without prejudice to the treatment of such costs incurred by the CDSP pursuant to the Budget and Charging Methodology).

6 Further provisions

6.1 General compliance

- 6.1.1 Nothing in this Document shall prevent the CDSP from taking any action which it considers reasonably necessary to comply with any Law or to avoid a breach of the DSC, or require the CDSP to notify or consult with or await a decision of the Committee before doing so; but (where relevant) the CDSP shall inform the Committee of any such action taken as soon as reasonably practicable.
- 6.1.2 The Committee may not take a decision which would require the CDSP to act in breach of Law or the DSC; and the CDSP shall not be required to comply with any such decision; but the CDSP shall notify the Committee as soon as practicable if the CDSP concludes that a decision of the Committee would have such effect.

6.2 Support to Customers

- 6.2.1 Where (other than pursuant to an existing Service) a Customer requires information (relating to Services provided to it, or to the DSC) or other support from the CDSP for the purposes of compliance with a regulatory requirement or in connection with a regulatory investigation, the CDSP shall on the request of the Customer provide such information or reasonable support, so far as it is able to and without breaching any Law or a binding duty of confidence.
- 6.2.2 Such support or information shall be requested and provided as an Additional Service unless it is established that the Customer's requirement for such support or information resulted from a breach by the CDSP (not excused by Force Majeure) of a provision of the DSC.

6.3 Information disclosure

- 6.3.1 It is recognised that the CDSP may from time to time be requested to provide information to persons or bodies who are not Customers or TPS Customers (or prospective such customers), such as government bodies, academics or consultants.
- 6.3.2 Subject to paragraph 6.3.3, where the CDSP considers that the provision of such information
- (a) would require the commitment of material CDSP resources or incur a material Cost (unless it is to be provided as a Third Party Service); or
 - (b) might have any other adverse consequences for the CDSP or for Customers collectively,

the CDSP will consult with the Committee before agreeing the request, and will provide such information only as and to the extent approved by the Committee.

- 6.3.3 For the avoidance of doubt, the CDSP:
- (a) will comply with any requirement in Law to provide information; and
 - (b) will not provide information in breach of any Law,

and the CDSP will not be required to consult the Committee in respect of a matter within paragraph (a) or (b).

- 6.3.4 If a Competent Authority requires the CDSP by Law to provide information of a non-routine nature, and in the CDSP's reasonable opinion the circumstances in which such requirement arises represent a material risk or cost to the CDSP or Customers, the CDSP will inform the Committee (whether before or after complying with such requirement).
- 6.3.5 Subject to paragraph 6.3.3, information provided by the CDSP as contemplated by this paragraph 6.3 will not include Confidential Information relating to any Customer.
